Rekan Azad Ali

Junior Software Developer | IT Technician | AI Creator | Finance

+9647740910308 nietxzv@gmail.com Sulaymaniyah 26th of January, 2001 Kurdish

SUMMARY

Reliable, dedicated, and driven—known for staying focused through long hours and never backing down from a challenge. Quick to adapt, always ready to take initiative, and fully committed whether working solo or alongside a team. Strong sense of responsibility and a constant push to improve and get things done right.

EDUCATION

Bachelor of Computer Science

Komar University of Science and Technology

01/2023 - 09/2026 Sulaymaniyah, Iraq

- Designed and implemented various projects in networking and programming, alongside practical experience gained during a cybersecurity internship.

Computer Science Diploma

Kalar Computer Science Institute

01/2015 - 01/2020 Kalar

- During my diploma, I set up a local lab server, completed projects in C#, VB.NET, HTML/CSS/JS, and actively supported classmates with technical work.

EXPERIENCE

Cybersecurity & Privacy Specialist

Cybergate

- Worked in cybersecurity, managing and protecting people's privacy, and handling security for personal social media platforms and related accounts.

Freelancing

Various Jobs 2013 - Present Anywhere Possible.

- Freelanced across technical and non-technical roles, building local servers, simple web apps, and designs, while also working as a valet, medical writer, and minimarket staff.

System Operator

Highcrest Hotel 08/2025 - 01/2026 Sulaymaniyah

- Administered core financial systems and provided technical support and training to department staff.

System Manager

Meera Post 03/2024 - 06/2024 Sulaymaniyah

- Managed system operations and data analysis, monitored performance improvements, and supported team operations through daily assistance.

Management Supervisor

Ibn Sina Pharmaceutical 02/2020 - 05/2020 Kalar

- Supervised COVID emergency lab operations, coordinated with medical staff, and trained staff on lab and data procedures.
